Product codes can be found in product data sheet tables. The codes provide some basic information about the product while a partially filled configuration code contains complementary information about the detailed specifications. When placing an order, product codes should include the fully completed configuration part. The configuration code part should be placed after the main product code. The main product code and configuration part will appear as shown in the example below:

## Construction of electric heater configuration code

WLALE054030

K916E1DRYM

PRODUCT CODE

(located in the table for the product)

CONFIGURATION CODE

(supplemented by hand)

## Configuration

K 916 E1 DRY M

Package code   Colour code   Connection code   Heating element code   Type of heating element cable code

*K – carton box*

## Zinc powder primer

**C** – Code of zinc powder primer is an extra processes

WLALE054030 K916SX **C** — *Extra processes or additions code*
